2:30 - 2:55pm 25 min	Network Survey Results (Christina)	1) Discuss Possible new goals(s) Gerald – suggest goals should be related to schools not students. It's hard to reach every student. Toby – Organizing data by classroom makes it easier to work with and track students in each class. Jodi - One idea on data collection: a y/n column check box on if full grade capacity was reached during the grade level program. another idea discussed for data collection: a fill in column with the number of classes served / grade level served. How many are collecting students' data – majority How many are collecting classroom data - same 2) Areas of focus Sally' s workshop - trauma inform & culturally responsive MidPen Grant on professional learning – model focus on DEI Accessibility – UDL is a way to support outdoor education 3) Collective Action Committee results - Case Study: Environmental Volunteers and District Partnerships Do people have the bandwidth? EV partner - bandwidth is always limited, but these are important - I'd make the time...	Environmental Volunteers and Mountain View Whisman - partnerships with districts (short presentation by Toby): - focus on 4th & 5th grade, each grade has 1 environmental experience & 1 field trip experience - Give teacher choice to select the bundles based on their fundings - Have a set stream of funding that is clear and robust - Bundle programs for teachers - sample spreadsheet - May be grants that are waiting for us if multiple partners are involved - Make sure partners are on same page. Need a point person from partners and from districts - Start small. Start with one grade or one or two schools. - Cathy Bower - Assistant Sup at MVWSD has been the district champion EV program – has courses and workshops on culturally responsive science/creating spaces for belonging. For anyone interested. Our next course is online 01/7 and 1/14
