

FTB#159 Notes/Playlist

Time for FTB #159, the latest transmission from the wire filled retirement village known as the home studio. Art Damage contributes a memorial of P.J. O'Rourke, a cornerstone of our humor category since the 70's. New sounds include Love Burns, Liquid Sound Company, John Prine, Big Thief, Night Shop, Amos Lee and Fantastic Negrito. The library gets quite a workout, using a new proprietary process called the "digital decimal system" we checked out optimum titles for joining the ride including; James Brown, Isaac Hayes, Passport, Brian Auger, New Order, Mark Lanagan, Psychedelic Furs, Julian Cope, Bubble Puppy, The Beatles, Lloyd Cole, XTC, Jon Langford, The Weeklings, Jimi Hendrix, McCoy Tyner, Little Feat, Buffalo Springfield, Led Zeppelin, The Move and a bunch more. Time even allowed an extended set which somehow became centered on heroin, a drug I have never and will never sample. Could be a good reason why I'm still here at 65 with thirsty ears. No link for funds needed right now. Thanks for all your support, enthusiasm for music and always your ears and heart.
