....Unless you are still interested in selling your house

Hey Abbey!

I noticed your home on Zillow at 17 Masonic Lane in Richmond.

Still thinking about selling it?

Selling a home with 7–8% interest rates might seem like a tough hill to climb.

But we've weathered many market ups and downs before.

And selling your home in today's conditions is much more achievable than most people think.

So please drop me a line if you're still interested in selling.

And I'll share with you how we can make your house stand out to sellers this time around.

Looking forward to chatting,
