One-Handed Height Adjustment

Effortless height adjustments with our spring-assisted legs using just one hand. Get above brush and heather quickly and efficiently.

Ultralight and Compact - 7.6oz

Move through terrain effortlessly. Conserve energy and focus on the hunt, knowing every step is made lighter.

Quick Detach with MagnaSwitch™

Attaches in seconds without the need for latches or buttons, perfect for high-paced hunts. Seamlessly compatible with the full range of Spartan Classic Adapters.

One Bipod, All Your Rifles

Our adapters cover a wide range of rifles, eliminating the need for multiple bipod purchases, saving you money while providing unmatched versatility.

Improved Comfort, Less Snag Ups

Low profile adapters for carrying your slung rifle comfortably and less snag ups in grass and brush.

Traverse + Cant

Track targets and level your scope on uneven ground with 60° traverse and 30° cant adjustments.

Grip In Any Environment

Durable Steel tips with tethered synthetic boots to enhance grip on all terrains.

Premium Craftsmanship

Precision crafted from silicone, 7075 aluminum and premium carbon-fiber, striking a balance between lightweight design, corrosion resistance, and robust strength. Ideal for rugged backcountry use.

Modular Design

Modular body design is compatible with the full range of Spartan M14 leg options. Customize your system for your ideal setup across different shooting positions and environments.

How Do I Attach the Javelin Pro Hunt Tac Bipod to My Rifle?

The Javelin Pro Hunt Tac Bipod uses the MagnaSwitch attachment and can be mounted or removed in seconds. It's compatible with the full range of Spartan Classic Adapters.

What Is Included with the Javelin Pro Hunt Tac Bipod?

Everything you need is included in the kit for easy installation onto rifles with conventional removable sling studs in under 5 minutes.

- Javelin Pro Hunt Tac Bipod
- Classic Rifle Adapter Kit

What If My Rifle Doesn't Have a Removable Sling Swivel Stud?

No problem. We make rifle adapters for a broad range of accessory rails, including Picatinny, M-Lok, and Key Mod. These are available separately from the adapters collection on our

website. Don't hesitate to contact us if you have any questions about installing a Spartan product on your rifle.

How Much Does the Javelin Pro Hunt Tac Bipod Weigh?

In the standard height, the Javelin Pro Hunt Tac Bipod weighs just 4.8oz (135g), and in the long height, it weighs 8.3oz (236g). Conserve energy and focus on the hunt, knowing every step is made lighter.

Javelin Lite or Pro Hunt Tac?

Please read the full article for help on which Javelin bipod fits your requirements.
