

The education workspace README file is designed to provide a general overview of the exercise, facilitating the sharing and use of BV-BRC exercises among the educator community. To publish an education workspace, a README file is **required for each exercise within a workspace**, with the following information included:

Corresponding Educator(s): the name, email, and institution of **at least** one educator to contact regarding the exercise.

Overview: a brief overview of the exercise

Learning Objectives: the learning objectives and goals of the exercise

Files: a list of folders and files included within the exercise. Each exercise should be organized into three folders: (1) Documentation, (2) Job Outputs, and (3) Sample Data.

Services: Services used for this exercise

References: Any sources used to develop this exercise (e.g., non-BV-BRC tools, sample data, related publications, etc.)

Corresponding Educator(s)

[Insert list of corresponding educators]

Overview

[Insert description of exercise overview]

Learning Objectives

- [Insert learning objective 1]

Files

- Documentation
 - [File name/directory name: brief file description]
- Job Outputs
 - [File name/directory name: brief file description]
- Sample Data
 - [File name/directory name: brief file description]

Services

- [Insert service(s) used]
