

## Accessibility Compliance Tools and Resources

**Use these tools to assess barriers, plan, and take specific steps to increase access for people with disabilities.**

A helpful tool to ensure compliance with ADA and Section 504 requirements is the [National Endowment for the Arts' \(NEA\) Accessibility Planning and Resource Guide for Cultural Administrators](#). The guide is designed to help organizations not only comply with ADA and Section 504 but to assist in making access an integral part of planning, mission, programs, outreach, meetings, budget, and staffing. The NEA also provides forms designed to assist organizations in performing on-site evaluations of their organization's policies, programs, services, and facilities. Completing the Section 504 Self Evaluation Workbook or a similar evaluation such as Open Door Arts' Arts and Culture Self Assessment is required for grantees receiving federal funds.
