Craig, CO

Homeschool Enrichment Program Mission

The Moffat County School District Homeschool Enrichment Program will educate and inspire students to thrive in an environment of change.

Welcome

Moffat County School District would like to welcome you to the Homeschool Enrichment Program! This program is sponsored by Moffat County School District in a collaborative effort to provide enriched learning opportunities and to support the efforts of families who have chosen to be their child's primary educator.

You can inquire about the program by visiting the Moffat County School District Administrative Building at 600 Texas Ave or call Bre Ford at 970-826-6337. The Enrichment Program serves students on Tuesdays during the regular school year at The Boys & Girls Club and meets from 8:30 am to 2:30 pm. Please note that families will need to provide their students with lunch, snacks, and water.

Enrichment Program Overview

Once a week, our diverse and engaging enrichment program offers students a full day of creative exploration, physical activity, and skill development. The program will be thoughtfully designed to cater to distinct age groups and developmental levels, ensuring that every child is challenged and inspired.

Our days will begin with a morning welcome/warm-up and will include offerings such as art exploration, physical education, culinary arts, creative expression (drama), music, & STEAM projects, and will end with a closing circle. On occasion, local field trips will be offered.

Communication

Moffat County Enrichment program will communicate with parents and families with the following systems: Email, Classroom Dojo, and Infinite Campus.

Infinite Campus for Attendance and Online Registration

Infinite Campus provides integrated tools to streamline student administration, enable stakeholder collaboration, and individualize instruction. The web-based system allows educators, parents, and students to access information from anywhere. The Portal is also an Android, iPhone, iPad, and Touch device app.

Find 'Parent Campus' on the iTunes store, Google Play, or the Amazon App Store. You will be asked to search for your school district; please use Moffat County School District RE-1 in Colorado. Please contact the main office at 970-826-6337 to set up a username and password.

Standard Safety Response Protocols

Moffat County School District follows the I Love U Guys standard response protocol. All students and staff will be trained and practice the standard response protocols.

The Standard Response Protocol (SRP) is based on the response to any given situation not on individual scenarios. Like the Incident Command System (ICS), SRP demands a specific vocabulary but also allows for great flexibility. The premise is simple – these five specific actions that can be performed during an incident. When communicating these, the action is labeled with a “Term of Art” and is then followed by a “Directive.” Execution of the action is performed by active participants.

Hold is followed by the Directive: “In Your Room or Area” and is the protocol used when hallways need to be kept clear of occupants.

Secure is followed by the Directive: “Get Inside. Lock Outside Doors” and is the protocol used to safeguard people within the building.

Lockdown is followed by “Locks, Lights, Out of Sight” and is the protocol used to secure individual rooms and keep occupants quiet and in place.

Evacuate and may be followed by a location, and is used to move people from one location to a different location in or out of the building.

Shelter State the Hazard and Safety Strategy for group and self protection.

Behavior Infractions

Moffat County School District administration has a consistent approach and understanding of the general rules and guidelines for attending and receiving an education in our school. See MCSD School Board Policies and Code of Conduct for comprehensive guidelines.

Detrimental Behavior

Definition in statute: Behavior on school grounds, in a school vehicle, or at a school activity or sanctioned event that is detrimental to the welfare or safety of other students or of school personnel, including but not limited to

incidents of other behavior that creates a threat of physical harm to the student or to other students. Discipline consequences will be assigned by the administration and teacher.

Disobedient/ Defiant or Repeated Interference

Definition in statute: Being willfully disobedient or openly and persistently defiant or repeatedly interfering with the school's ability to provide educational opportunities to and a safe environment for other students. Discipline consequences will be assigned by the administration and teacher.

Protection of Property

Respect what belongs to others, including but not limited to Moffat County School District. Use property (equipment) only for its intended purpose without damage to the property. Use property belonging to others only with the permission of the owner or person in charge of the property. Report to school officials situations which may result in damage to, loss of, or misuse of property. Discipline consequences will be assigned by the administration and teacher.

Alcohol, Drugs, Tobacco

Students will not possess, use, distribute, and/or sell alcohol, tobacco products, drugs, and other mood-altering substances or medication prescribed for another person while at school, on district property, at school-sponsored events, or on school transportation. See School Board Regulation: JICH-R. Discipline consequences will be assigned by administration and teacher.

Weapons

Students will not possess or use any firearm, firearm component, ammunition, explosive or incendiary device on school property, at school-sponsored events or on school transportation. Any student who is determined to have brought a firearm to a school, or to have possessed a firearm at a school, at school-sponsored events, or on school transportation, will be long-term suspended; a long-term hearing will follow to determine additional disciplinary action. See School Board Policy JICI Weapons in School Discipline. Consequences will be assigned by administration and teacher.

Technology Expectations

The Moffat County School District offers students access to computers and the Internet to support the district vision and mission. In order to provide open access to the resources, tools, and equipment we believe are essential to teaching and learning, it is important that users understand their responsibilities and conduct themselves as responsible learners at all times.

[Guidelines](#)

[JS* Student Use of the Internet and Electronic Communications](#)

Telephone Use/Cellular Phones/Earbuds

Cell phone usage is for positive communication. During school, all electronic devices should be silenced and **stored in backpacks**. Cell phones will not be used to take photos or videos of other students and may be considered unruly behavior or electronic bullying, especially if distributed to other students and/or on social media. Moffat County School District is not responsible for any lost or stolen electronic devices. Students are encouraged to leave these items at home, but if a student chooses to bring them to school, they are responsible for them at all times.

General Homeschool Information from the Colorado Department of Education

(<https://www.cde.state.co.us/choice/homeschool>)

A letter of intent must be submitted to a Colorado school district of a family's choosing 14 days before beginning the homeschool program. The family does not submit the letter of intent to CDE. The letter of intent must include the name, age, place of residence, and number of attendance hours for each child that will be participating in the home school program. Should you begin your home school program during the school year, you may prorate the 172 days of instruction requirement against the attendance already completed. Written notification must be re-submitted to a Colorado school district each year.

Home School Requirements

Colorado law states that home school programs must include, but are not limited to, the subjects of communication skills of reading, writing, and speaking, mathematics, history, civics, literature, science, and regular courses of instruction in the constitution of the United States.

Records

Records for each child participating in a home school program must be kept on a permanent basis by the parent who is overseeing the home school program.

The records must include, but are not limited to, attendance, test and evaluation results, and immunization records as required by C.R.S sections 25-4-901, 25-4-902, and 25-4-903.

The records must be produced and provided to the school district that received the written notification, not the state of Colorado, at the school district's request.

Records verification requests (including transcripts and diplomas) must go to the parent who oversees the homeschool program, or to the district the family filed the letter of intent with.

CDE does not receive or house any records related to homeschool.

Assessments

Students that are participating in a home school program must have academic progress evaluated in grades 3, 5, 7, 9, and 11. CDE is not able to advise on the selection of assessments and there is not a list of allowable assessments. Please contact the school district with which your letter of intent is filed for further questions.

Students are not required to take the state standardized test, but can take a nationally standardized achievement test or a qualified person, as described in C.R.S. 22-33-104.5(3)(f), can be selected by the parent to evaluate the student's academic progress.

According to the home school law, the assessments that home school students must take are either a nationally standardized achievement test or an evaluation of academic progress administered by a qualified person that the parent selects.

A qualified person is someone who has a CO teacher license, is a teacher in an independent or parochial school, is a licensed psychologist, or has a master's degree in education.

The parent of the home school program works with the qualified person to determine what the evaluation of academic progress would be. Local homeschool support groups may also have more information on what those evaluations of academic progress could be.

The test or evaluation results, whichever is appropriate, shall be submitted to the school district that received the letter of intent.
