

Site Features:

Kawako Shiba Inu is a family owned dog kennel focusing at breeding purebreed healthy puppies, training puppies at early stage, and preparing owners for the new adventure. The look of the website will be very warm and welcoming with a touch of retro. There would be lots of inspiring cute shiba inu pictures on the side. Kawako Shiba Inu has been in the business for more than 30 years. However, they don't have a logo or slogan. The new site will focus more on how to brand this company better. Our mission is to place our healthy, happy, quality shiba puppies in the loving homes of the wonderful individuals and families we get to meet while pursuing a hobby we love.

Technical Features:

- Markup language: HTML5
