Comics, Cartoons, and Characters

Learn about making comic strips, drawing cartoons, and creating interesting and exciting characters from those who have done it the best! Together, we will examine famous comic strips, watch clips of cartoons, and try to understand what makes some of our favorite characters of all time so interesting. We will also get time to put that learning to use and practice those skills as we create our own comic strips, sketch character ideas, and even learn how to make our drawings move! Join us to help make your drawings interesting, engaging, and truly come to life!

At the end of the session students will take home their sketchbook, comic book and flip book.

Buttons and Canva

Canva is a great program to learn for creating everything from school presentations, to books to websites and much more. This class will be a fun way to get started. In this 2 class session you will learn to design in Canva and make 6 buttons to take home. In the first class Miss Jenna will walk you through designing your buttons using Canva. In the 2nd class you will make your 6 - 2 1/4" buttons and continue to learn and design more in Canva. At the end of the second class you can take home your buttons.
