KPIs

Challenge's KPIs:

- explain how your project will benefit the Cardano ecosystem
- explain whether your idea is stand-alone, or whether it will require further development longer-term, after your Catalyst Open project is complete (both possibilities are OK)
- explain how your approach is open-source
- explain how you will share your outputs (for example, a litepaper/white paper for a research proposal, or another form of publicly-accessible documentation to showcase your outputs)
- include a brief, clear rationale to confirm that your proposal does not fit any other challenge in Fund 10.

Project's KPIs:

- Number of online sharing sessions organized.
- Number of people participating in the online sharing session.

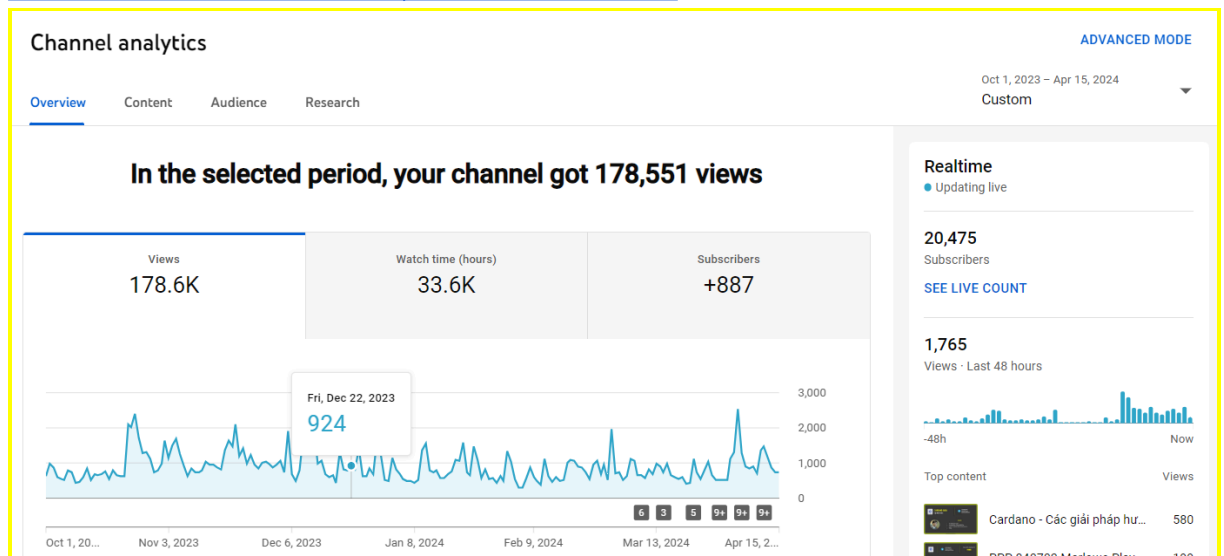

- The total number of videos recorded at the sharing session was published on Youtube.
- Number of video views after 10 days and 2 months after publishing the video.

Key learnings

- Vietnam lacks a reputable forum to present and discuss issues of the Cardano ecosystem for the community of cryptocurrency lovers in Vietnam; The Cardano ecosystem has yet to attract many community members to participate.
- Create online talks to share knowledge, information and potential of the Cardano ecosystem. Answer, guide, advise and encourage the community to participate in the ecosystem. Public video sharing sessions on social platforms.
- The CardanoTalk proposal aims to bring the Vietnamese community and developers interested in Cardano and cryptocurrency. Additionally, it will also attract new people to join Cardano.
- CardanoTalk will provide an open, reputable, quality online forum for Vietnamese users, providing diverse and detailed information about projects, while creating opportunities for them to discuss, ask questions and comments.

What's next?

- We will continue to organize discussions, share with the existing community and edit into videos to serve the Cardano Vietnam community.
- Continue to support the community in the [Cardano Telegram group in Vietnam](#).
- We continue to update relevant information about the Cardano ecosystem daily in the Telegram group.

Our thoughts

- Participating in a project sponsored by Catalyst is a great opportunity for us to realize our ideas and projects. Catalyst is a nonprofit organization that provides funding for innovative, creative projects that have the potential to create a positive impact on society. The Vietnamese community of cryptocurrency lovers has the opportunity to officially and easily access the Cardano ecosystem.
