

ASSIGNMENT OF NEW STUDENTS TO CLASSES AND GRADE LEVELS

New students entering from schools recognized and approved by the Nebraska Department of Education will initially be placed in grades and classes on the basis of their grade placement/credits in the school from which they are transferring. The district administration, through academic achievement tests and other evaluation measures as necessary, will determine the appropriate grade level/credit status of students transferring from schools that have not been approved by the state department of education. These measures may include chronological age, previous public or private school experience and transcript review, diagnostic or achievement testing data test data, criterion referenced test data, exam test data, and administrative or counselor reviews.

Previous high school work may be validated for a high school student by successfully completing a higher level unit in this district's high school for every unit completed in a non-accredited high school; i.e., completion of a second unit mathematics would validate the mathematics credit transferred. If no successive course work is pursued to validate the credit, similar or equivalent work will be evaluated at the discretion of the principal.
