- Shadow⁸ (echo, ghost, relic, trace, vestige)

Including a lexical/semantic/functional synonymy with the following "term of art"⁹:

- Peer-to-Peer P2P¹⁰ (for example: peer-to-peer or P2P lender, peer-to-peer or P2P investor or peer-to-peer or P2P borrower)

Prior to 2017, "private" was the primary term used because Peer-to-Peer and it's acronym P2P was "too technical for retail use". In the case of the term Crypto, it's use in common finance discourse "only" became more "acceptable" in commerce in 2017 when the bitcoin boom started to become non-trivial. When reading the word "private", you may also interpret the word as "crypto".
