Sunshine Report

****

Note: Please call or text Pat Hunter at 817-729-4711 or E-mail "prhunter@sbcglobal.net" if you know of any ASMGA member who needs to be added to the Sunshine Report. Also, give Pat a call or send a note if you wish to keep your friends apprised of your own progress on any issues keeping you from playing.

This is Pat Hunter

I will be contacting ASMGA members that have recently gone inactive or those members that other people have expressed concern about their health. There are many reasons you may have gone inactive or just stopped playing for a period. Those reasons may be for health reasons for you or a family member. If you are having health issues and don't mind sharing, I will include your information here, to keep your friends and acquaintances informed about your progress and when you might be back playing with us on the golf course. I do not wish to intrude, nor do I want to put out incorrect information. You can always tell me to back off and not share information. I will respect your privacy.

GARY ERICKSON - LYMPHOMA

10-27-2026 Gary is doing great. He and his son are going to Cancun on Friday. He has a couple of river cruises scheduled for next year. The neuropathy in his left leg is keeping him from playing golf.

*9-30-2026 Gary is doing well. His cancer is in remission, but his neuropathy just won't go away. That is what is keeping him from playing golf. The lack of feeling in his feet makes a golf swing unstable. Other than th*at he is staying active, going out with friends, and spending time at the lake house in Bowie.

8-31-2026 No response

7-28-2026 Gary made his one year in remission That was a milestone in his recovery. His next checkup will be in a couple of months. He is hoping his neuropathy will improve so he can return to

golf.

06-30-26 Gary is feeling very well. He is at his lake house in Bowie, celebrating the 4th of July with his family. July the 9th he will have his last CT scan. That will be the one year milestone of being in remission.

05-28-2026 Gary is doing well. He will have his final catscan next month. His neuropathy is getting much better. He is walking more and more without a cane.

04-29-2026 Gary and his wife were at their lake house on Amon Carter Lake, near Bowie, when I called. Gary's CT scan on April 17th came back negative. His next one will be in June and that will be the 12 month milestone he wants to reach. The neuropathy is getting much better.

02-25-2026 - No Response

01-29-2026 Gary had a followup PetScan on December 8th. The results showed he had no cancer. He is doing weekly blood draws to check his white blood cell count. He just had a bone marrow test that came back negative. He still has neuropathy in his left foot and needs to use a cane for walking. April will be a year in remission. His oncologist stated that he has never seen his type of cancer return after a year. Wishing him the best for the next three months.

12-31-2025 No response

DAVE WILLBURN - STROKE

10-27-2026 Dave sounded great on the phone. He is still taking short walks daily. He continues to have trouble connecting the dots that prevent him from doing things on the computer. He enjoyed seeing everyone at the memorial luncheon at Tierra Verde and he will be at the Memorial banquet on November 12th.

9-30-2026 Dave went to his neurologist on Monday and got a good report. The next day he thought he was having another stroke and went to the ER. It was a false alarm and everything is ok. He continues his therapy trying to work on connecting the dots, as he puts it, and is walking everyday. He feels like his golfing days are over which is very disappointing.

08/31/2026 No response

07-28-2026 Dave has completed his in-home therapy. He and his wife are going on a two week cruise along the Eastern seaboard to celebrate his wife's 80th birthday and their 50th wedding anniversary. When he gets back he will start reading therapy. This will help strengthen his cognitive skills.

BILL JAMES - GOLFER ELBOW

10-27-2026 Bill had elbow surgery on Wednesday. They fixed a pinched nerve and repaired a frayed tendon. He will be out another six months.

09-39-2926 The stem cell injections he had done last month did not produce good results and he still has a lot of pain. He will go to the doctor tomorrow and plan out a new course of action. Tommy

John surgery might well be the next step.

08/31/2026 Bill has golfer's elbow. He had stem cell implants done last week. It will take up to

Weeks to see any improvement. Hopefully he can avoid having the surgery.

STAN FRAZIER - STROKE

10-27-2026 No Response

09-30-2026 He had a stroke on the golf course several weeks ago. The stroke damage was minimal. He has his speech and motor skills. He had some PTSD from the stroke. That and the heat has kept him off the golf course. He thanked Kirk Powers for not taking 'NO' for an answer and got him to the hospital quickly.

WILLIAN GRAY - HAND TREMORS AND DIGESTIVE ISSUES

10-27-2026 William has hand tremors and digestive issues. He will be having tests done over the next two weeks for both. The doctors don't think he has Parkinsons, but the tests will determine that.

CLINT SESSLER - NECK AND SHOULDER PAIN.

10-27-2026 Clint has neck and shoulder pain. The Doctors are having a hard time finding the root cause for it. He has asked not to be on the Sunshine Report.

DAN HENDRIX - ROTATOR CUFF SURGERY

10-27-2026 Dan has a torn rotator cuff and will have surgery next month.
