Car Seat Checklist

In the interest of child safety, Rugrats Resale requires consignors to fill out a Car Seat Checklist for each car seat/booster seat brought to the event. Even if your car seat is in immaculate condition, do not assume that it can be resold. Several factors affect the integrity, and ultimately the safety, of the seat; none of which have to do with the condition of the fabric encasing it.

The damage that you can't see can prove fatal for your child. Over time the plastic shells degrade and the harnesses can wear. The conditions in cars (extreme heat and cold) hasten the breakdown of these critical components. Bottom line, our children are our world. Let's keep them ALL safe.

You are REQUIRED to take the time to verify the following information and your signature at the bottom of this form confirms having done so.

Brand: _____

Model: _____

Serial Number: _____

Date of Manufacture: _____ (Cannot be sold if over 5 years)

I, _____ (name of consignor), signify that I have confirmed, to the best of my ability, that the above named car seat/booster seat is NOT on any recall list. I have visited the website: <http://www.recalls.gov> to verify this information.

I further attest to the fact that all of the following are true:

- 1) All tethers, harnesses and locking mechanisms are functioning properly.
- 2) All brand, model, serial number and manufacturing labels are present and legible.
- 3) The car seat/booster seat has NEVER been in a car accident of any kind.

If any of the above statements are false, the seat cannot be sold at Rugrats Resale.

Name of Consignor (Printed): _____

Consignor #: _____

Date: _____

Signature of Consignor: _____
