

Southwest **SPEED** **FESTIVAL**

Event FAQ / Load in and Load Out procedures

Thank you for deciding to join us at the 2nd Annual Southwest Speed Festival in Casa Grande Arizona. We are excited to get the race weekend started! To make your weekend as smooth as possible please read through this document thoroughly!

Competitors, please fill out this form as soon as possible: [Click here](#)

We need this basic information to promote you on our live stream as well as locally in the paddock

Parking

Please see the attached map. All support vehicles / non essential vehicles may be parked in the designated support zones directly south of the paddock. Please note, all open trailers, and trailers that are NOT needed in the paddock will be directed to these zones. The trailer parking is roughly 30 feet from the paddock to ensure easy access to any items stored in and on trailers.

RV's / campers will be parked outside of the paddock space about 60 feet from the paddock. You will be directed by staff on where to park.

This will be a SOLD OUT event, so we ask you to use the minimal amount of space necessary. Please do not attempt to circumvent the parking staff while we try to park you as tightly as possible to ensure EVERYONE fits. By voluntarily parking your trailer in the overflow for us, you are doing a big part to make this event happen! Thank you for understanding.

Camping

Camping is allowed this year, and as always with all NASA / multi day events, we appreciate it if you purchase the camping passes available to offset the cost of security,

extra porta potties, and keeping the gates open late for you!

If you purchased an RV pass, you do not need camping passes on top. Only one RV pass is needed per a vehicle (think of it as a parking pass).

Camping is dry (no hookups). Please no fire unless in a Propane fueled enclosure. It will be cold so pack warm!

Load in/out information

Out of state racers: You **MAY** load in as early as Thursday 1/29 at noon. Please do NOT park your vehicles without assistance from staff.

In state racers: We **HIGHLY** recommend you arrive at the track between 9am and 9pm Friday 1/30. Saturday will be VERY busy and this extra effort I assure you will save you immense amounts of energy and frustration. Please do NOT park your vehicles without assistance from staff.

DRIFTERS: Please be loaded in by 9am on Saturday. As this is a spectator event, and gates open at 10am to the public, arriving late will make it impossible to set up. We advise early paddocking on Friday as with all other drivers.

CAR SHOW: Please be loaded in by 9am on Saturday. As this is a spectator event, and gates open at 10am to the public, arriving late will make it impossible to set up. There is no early entry for Car Show

On Sunday, you may load out as necessary. Please consider staying as late as possible even if you're finished for the weekend to reduce movement in the paddock while spectators are present.

Practice

If you purchased Friday PRACTICE, the track will go hot at 10am

Friday. The track will rotate every 20 minutes from Open Wheel / Rush, Sedans (race, tt, time attack) and motorcycles (if present) until the track closes at 3. Please keep an eye on the Podium Club schedule board located at Grid hanging from the conex for changes. This should give you 2-3 hours of potential seat time if you're on site on time.

If you did NOT prepurchase practice, it will be available via payment directly to the track

(\$200). Prepurchase ends Tuesday the 27th via this [link](#)

Fuel

Fuel is available on site from the racetrack in 94, 100, and 110 Octane

E85 will be available from WDL Racing on site in 54 gallon drums, or pumped by the gallon (while supplies last). I would suggest pre-purchasing a drum if you are relying on availability on site.

Florence BLVD has several E85 stations if you are looking for alternatives. These stations also have Diesel and 91 octane.

Food

We have 7 food trucks attending the event so please consider purchasing meals from these folks.

Catalyst Crafted ales will be on site serving as well, but please note, if you purchase a beverage, your drivers wristband will be cut off and you'll need a new one for day 2.

Water will be available in the drivers lounge.

Catalyst Crafted ales will give each and every registered DRIVER a complimentary can of the SWSF Hazy IPA. Please note this will be AFTER the Time Attack on Saturday only.

Pet Policy

Please no animals on site UNLESS they are a registered and MARKED service animal (not ESA). The racetrack can be a scary place for your furry friend and we'd have to have them or someone else injured!

Spectators

This is a spectator centric event so please be mindful of where your belongings are, and toolboxes etc. The general public will be milling around and wanting to talk to you and

we encourage interactions, and while we'd like to believe everyone is honest, let's do our best to take care of our belongings. Not using the tools? Put them away!

Crew Passes

There are no crew passes this year. Instead of building passes into the entry price, we have lowered the entry price to allow your friends and crew to simply purchase a spectator ticket as a crew pass. Please use code **SWSF2026** when checking out as it is cheaper than the gate price. This code will NOT be usable at the gate.

Entertainment

We will have High 90's back again this year along with Blink 180TRUE - Get ready to relive your 90's golden years of rock and punk! We also will be showing the 24 hours of Daytona in the food corral when other activities are not planned so feel free to enjoy one of our brand new picnic tables and cheer on racers across the country!

Autism Fun Run! If you would like to participate, we would HIGHLY encourage it! The kids love running with racers last year and your help making this a success is vital! It will happen around lunch time! Please sign up [here](#)
