6.

For Summer 2021:

All summer STARTALK programs (online)

If your students may be interested in a summer Arabic learning program, have them stay tuned to the [STARTALK website](#) for updates to programs across the US--many of which may be virtual this summer!

7. Coming Soon

QFI hosted Arabic Summer Institute virtually for the first time this year, keep an eye on this page for videos and recorded sessions which will be uploaded [here](#) soon.

8. Global Nomads Group's Student to World programming

Student to World is a series of free online course modules based on topics of interest to students. Using video episodes and story-sharing, students will be able to learn global perspectives on the topics that matter most to them. Student to World is a program

(~1-2hr/week) for Youth (ages 12-19) to explore a global theme through video episodes that include engaging content and global peer story exchange. Video episodes include captioning (in English and Arabic), ASL interpretation and image descriptions. Each module offers up to 6 weeks of content but teachers can participate however their schedule fits. Students learning Arabic can turn Arabic captions on and use corresponding Arabic language vocabulary worksheets to follow along! Once a semester, GNG holds live events with native English and Arabic speakers, giving youth a chance to discuss the process of learning another language, ask questions about culture/daily life in different countries, and share what they've learned in Student to World! You can see the Topics available [here](#) and register after clicking and exploring one of the 8 topics available. You can see the list of "live events" [here](#).

Apps/Resources (not classes)

- **Kalamna Phonics E-Toolkit**

<https://kalamna.org/kalamna-phonics/>

This new (as of July 2021) resource consists of 10 books and corresponding flash cards, presenting Arabic letters and sounds in simple narratives. Each word was carefully chosen to correspond to common usage in speaking and writing. Simple, rhyming, and fun. I'm using them with my 5-year-old :) Someday hopefully this will be available in other formats (paperback and/or an app for devices, including audio). For now, these are e-book style because it was the quickest way to make them available. Enjoy!

- For language games for kids and adults in Arabic and other languages:

<https://languagedrops.com/>

- Arts and Crafts Classes for classrooms and small groups

- **Craft N Talk - classroom enrichment - for teachers and group leaders**

If you are hoping to add some virtual enrichment to your Arabic classroom, consider utilizing an art enrichment class with "Craft N Talk" (<https://craftntalk.com/>). "Craft N Talk" is an educational company that hires refugees and displaced teachers in need to implement artistic lessons in foreign language classes. If you are looking for an artist to teach your students Arabic calligraphy or how to play Darbouka and oud, consider supporting these teachers. In only one hour, students will be able to learn the Thuluth style of calligraphy, for example. Email them at info@craftntalk.com for more information or to get a quote. Consider also applying to the Classroom Resource Enrichment Grant offered by QFI to cover the cost of this enrichment.

- Little Thinking Minds - includes Arabic apps for kids of different ages, as well as other educational tools. See: <https://littlethinkingminds.com/en/Products>

- Ebooks for kids (and adults) in Arabic:
