1	02 Dec	Scratch Programming	Question Answer Writing	1. Which of the code block is generally used to start a scratch Program ? 2. Find out words Page 95, Que 1

2	03 Dec	Scratch Block Types	 Program 8 Draw three different s Scratch File Edit Tips About Sprites New sp Stage 1 backdrop New backdrop: 3 SCRATCH BLOCK TYPES You have learnt that your scr blocks, there are other type Let us talk about different h 1. Hat Type Blocks [These blocks have rounded t tops of scripts/programs. Ha click the green flag or press Hat blocks are found in Eve when clicked when space when backdrop switches to backdrop	1. What is Hat Type Block ? 2. What is C Type Block ?
---	-----------	---------------------	---	--

II. Stack Type Blocks [

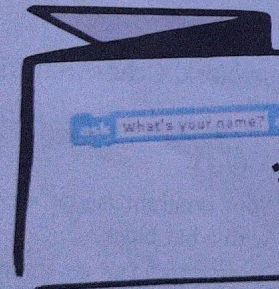

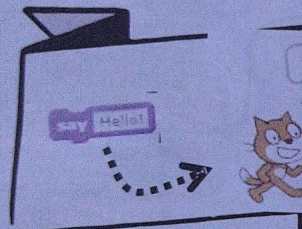

These blocks have bumpers on the sides so that they can be stacked together in a stack.

Stack blocks are further divided into three types:

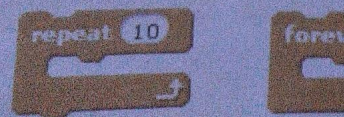

- (a) **Plain Action type.** These blocks may not have bumpers on the sides.

if on edge, bounce

- (b) **Interaction type.** These blocks can be triggered from user *e.g.*, say something (see below).

- (c) **C type.** Some stack blocks can contain other stack blocks. (e.g., repeat block). Some C type blocks are called 'loop' blocks.

III. Reporter Blocks

Reporter blocks are values that blocks:

- (a) **Number or String value**
or strings, and fit in bl

- (b) **Boolean value blocks.**

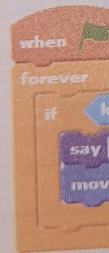

ke

are called **Boolean bloc**
holes.

Boolean blocks always
whether a key is presse
blocks are shown below

key right arrow pressed?

See following code where you

IV. Cap Blocks

These are the blocks with a n
bottom of the Control categor
an option *e.g.*,

It is the last block of any s

You will learn about various
