Torso: Stealth Chest Guard

Legs: Gerudo Sirwal

Personal Items:

An old leather bound journal on beekeeping.

יחבנא דאשזעבא
יחבנא דאשזעבא

Personality:

Sanskar has an abrasive personality. Having lived for millennia, he sees the limited knowledge and experience of the mortal races and looks down on them for it. When they come to him to seek wisdom, he will present them with trials to test their mental capability to see if they are even worthy to hear his guidance.

He doesn't get attached to people, but it doesn't mean he isn't emotionless. He is very expressive, laughs loudly, and finds amusement in even the smallest things. It's hard to make him upset or bother him. As for the oracle, he does enjoy engaging in conversations with her and can at times be a little over protective.

History:

Sanskar was born millenia ago, under a different name. Back when the first group of oracles arrived in Hyrule, Sanskar was but a young dragon. He swore his life to the service of Nayru and formed a strong connection with her. After the first oracle passed, he continued to follow her guidance and watched the world from the wings, exploring and expanding his knowledge.

During the events of *Breath of the Wild*, he was the dragon Naydra. Infected with malice, the hero of courage freed him from the corruption and saved him. But because of that, the dragon became even more cautious of the malice and blight that was spreading across the continent. Weakened by the malice, he took on human form and recovered in the sheikah village, taking on the name Sanskar to hide his identity and true form.

After a number of years, he felt recovered enough to leave, and felt he did not want them to notice that he was aging even slower than they were. He left and created a home on Mt. Lanayru.

When the blight bloom hit for the *first time*, the sheikah village was on the verge of being destroyed. At the request of an old friend, detailing Kakariko's urgent need for help, Sanskar descended off the mountain and cleared Lanayru Promenade of monsters permanently, allowing the Sheikah village to be moved to its new location - which would become the current Inariko. None of the current residents of Inariko lived during the time Sanskar stayed in the village as a human, so the boy's existence there had disappeared entirely. Now Sanskar is the name of the dragon of wisdom. Brave souls from Inariko will take the journey up to his temple upon the mountain to seek the great dragon's wisdom.

A mysterious young boy seems to be the one who gives the dragon's trial, and the existence of the dragon's humanoid form is known only to a few.

Extras:

- It is rumored that the dragon enjoys sweet foods
