

Group Brainstorming for Project Ideas

(Week 1/Day 1)

- 1) Used for small groups although it works best for around 4 to 6.
- 2) Members are asked to call out ideas. Free expression is essential. Any evaluation of an expressed idea is to be avoided. Nothing should be said to discourage a team member from speaking out.
- 3) Team members are encouraged to build on ideas generated by others (hitchhike) as new thoughts or ideas germinate based on others suggestions.
- 4) Recorders are necessary.

One copy of this handout should be turned in for your group.

Names of group members:

Circle the name of the person that is doing the recording.

One person in the group needs to turn in a copy of at least 12 developed ideas to your instructor. Everyone should write down ideas they like. More ideas are always welcome!
