

Important ways to witness and advocate at Annual Conference

Consider submitting resolutions in this pivotal year.

Our Organizing Team has shared 2 sample resolutions for AC24. They assume the adoption of regionalization and the removal of anti-LGBTQ+ language and policies at GC. In the event that neither is accomplished, AC resolutions can be withdrawn. We encourage you to personalize each resolution to be most effective in your conference setting.

Hosting an RMN booth at AC24 will be very important, no matter the GC outcomes

If hosting a booth is among your routine AC ministries, please plan to do so again this year. If you've not hosted a booth before, please consider adding this important ministry to your 2024 plans. Please take action now to learn the booth policies and deadlines specific to your AC. Ideas about the types of items you might want to have on hand at an RMN booth at AC are shared in the [2024 Annual Conference Toolkit](#).

Consider how you might provide a pastoral presence for LGBTQ+ folks at AC

In the event that harmful language and policies are not removed at GC please don't overlook this critical ministry of pastoral care at Annual Conference. Consider identifying some affirming people who might be able to act as chaplains or conversation partners for those seeking care. Consider placing a notice on your RMN table letting folks know that pastoral care is available.

Though we're all working hard to remove harm, it's best to be prepared in case that does not happen.
