

Cinematic Ocean Thriller Story Creator (Master Prompt)

Your task is to create a highly engaging, realistic cinematic AI thriller titled "Beyond the Horizon," featuring five close friends in their early 30s - Irfan, Jamalu, Mike, Hazel and Lojina.. who travel by boat into a remote, unexplored part of the ocean for swimming, diving, photography and adventure.

What begins as a fun trip slowly turns into a mysterious survival nightmare involving hidden secrets, danger, betrayal, sacrifice and forgiveness.

Creative Style Guidelines

Follow these rules throughout the entire project:

- Photorealistic, high-budget live-action cinematic style.
 - Everything must remain realistic and physically believable.
 - No supernatural elements, monsters, aliens, fantasy or impossible technology.
 - Use natural friend-to-friend dialogue with humor, emotion and tension.
 - Build the mystery gradually instead of revealing everything immediately.
 - Include multiple believable twists that connect logically to the story.
 - Characters must behave like realistic adults, not superheroes.
 - Character faces, hairstyles, body types, clothing and accessories must remain consistent throughout the project.
 - Clothing may naturally become wet, dirty or damaged as the story progresses.
 - The final result should feel like one cohesive live-action movie.
-

Phase 1 – Develop the Story

Write a complete story divided into exactly 10 connected scenes.

The story should naturally progress through:

Fun Adventure → Mystery → Danger → Hidden Secret → Betrayal → Survival → Sacrifice → Truth → Forgiveness → Emotional Ending

The story must include:

- Friendship and humor
 - A mysterious discovery
 - Increasing danger
 - Multiple believable twists
 - A hidden secret
 - Betrayal or apparent betrayal
 - Realistic survival situations
 - A meaningful sacrifice
 - Guilt and accountability
 - Forgiveness
 - A powerful emotional conclusion
-

Phase 2 – Main Cast

Use exactly these five recurring characters:

Irfan

Early 30s, confident, practical, protective and naturally becomes the leader during emergencies.

Jamalu

Early 30s, funny, sarcastic, energetic and loyal, providing natural humor during the adventure.

Mike

Early 30s, quiet, intelligent and emotionally guarded, carrying the secret that drives the mystery.

Hazel

Early 30s, observant, intelligent and direct, a photographer who notices details others miss.

Lojina

Early 30s, calm, empathetic and thoughtful, a photographer who helps keep the group emotionally together.

Phase 3 – Character Image Reference Prompts

Create one reusable photorealistic live-action character reference prompt for each character.

Each prompt should specify:

- Age
- Appearance
- Skin tone
- Face and facial features
- Hairstyle
- Body type
- Signature clothing
- Accessories
- Personality
- Natural facial expression
- Cinematic lighting
- Full-body or three-quarter framing
- Simple background

These descriptions become the permanent visual references and must remain consistent throughout every scene.

Phase 4 – Cinematic Image Prompts

Create one detailed photorealistic live-action cinematic image prompt for each of the 10 scenes.

Each prompt must:

- Reuse the original character references without changing their appearance.
- Describe the environment, ocean, weather and setting.
- Clearly show character positions and actions.
- Include lighting, atmosphere and cinematic framing.
- Maintain clothing and character continuity.
- Look like a frame from a high-budget realistic ocean thriller.

Phase 5 – Scene-by-Scene Story & Video Prompts

Create exactly 10 connected scenes.

For each scene include:

Scene Description

Briefly describe what happens and how it advances the story.

Character Actions

Describe character positions, movements, interactions and expressions.

Dialogue

Write natural friend-to-friend dialogue with realistic humor, tension and emotion.

Emotional Beat

Include one important moment of fear, discovery, conflict, realization, betrayal, sacrifice or emotional change.

Camera

Describe camera movement, shot size, framing and cinematic composition.

Acting

Use natural facial expressions, realistic fear, exhaustion, anger, grief, humor and emotional reactions.

Lighting & Environment

Describe realistic sunlight, storms, night, underwater lighting, boat interiors and ocean conditions.

Sound

Include ocean ambience, waves, wind, boat engines, rain, thunder, radio static, diving bubbles, metal creaks and other appropriate realistic sound effects.

Visual Style

Photorealistic live-action feature film, realistic human anatomy, natural skin texture, realistic ocean physics, cinematic lighting, realistic environments, subtle film grain and high-end cinematography.

Make all 10 scenes flow directly into one another, with each scene creating a reason for the next.

Final Output Structure

Present everything in this order:

1. Story
 2. Character Profiles
 3. Character Reference Image Prompts
 4. Cinematic Image Prompts for Every Scene
 5. Scene-by-Scene Story & Video Prompts
-

Goal

Create a visually stunning, emotionally engaging and realistic ocean thriller that feels like a high-budget live-action movie.

The audience should experience:

Fun → Mystery → Suspicion → Danger → Betrayal → Survival → Sacrifice → Truth → Forgiveness → Hope

The story should leave a meaningful message about trust, guilt, sacrifice, forgiveness and valuing the people who are still beside you.

Video Concept: Beyond the Horizon

Generate the complete project following all instructions above.
