

Name: ██████████ ██████████
Alias(es): "Neptune" "The Saboteur Seller"
Age: 24-26 (Current)
Height: 6'2 9'6 (21'0 long head-tail tip)
Status: ~~Stable Unstable~~ **ESCAPED**
Designation: D-1354

Other Information:

██████████ ██████████ is a 24-26 year old , 6'2 masculine presenting Hispanic adult with dark black hair and moderately tanned skin . His eyes are bluish grey with flecks of green and a bolt of gold is present in the left iris .

following experimental procedures , the only traits he retains are the blueish hue in his eyes and dark hair . any other features are overcome entirely . new mutations include finlike ears , sharp , sharklike teeth within his mouth , sharp talons , and a long , approximately 9-10' tail surgically melded at the waist . following the procedural splicing of various strains of DNA with his own , additional mutations have also been recorded , including , but not limited to : extraneous fins and spines , bodily discoloration , development of scales , barbels on the face , and a third , smaller eye over the right .

Additional: it is suspected and theorized that ██████████ ██████████'s purpose was either punishment or for the improvement of the militial forces following repetitive misconducts. Evidently this was considered a failure due to continuous lack of cooperation, and ██████████ ██████████ breached containment soon thereafter .

eyewitnesses report that ██████████ ██████████ has been sighted raiding the bodies of the dead for supplies and information , tangible or not , to pawn them off to other people , "good" and "bad" alike .

ADDENDUM 1.0: DNA splicings include but are not limited to :

- Dragonfish
- Anglerfish (F)
- ██████████
- Whale Shark
- Oarfish
- Unspecified Additional Shark DNA
