Tech Rider, Space Needs, etc

Note any technical needs (sound, visual, etc.), setup requirements, environmental conditions (dim lighting, away from noise, making noise) distance from other spaces that you have. Include where in the room you want to use and any even basic requirements for power etc that you might have.

Don't forget: Tables? Connectors? Power cables? Magic Arms? Speakers? Extension Cords? TVs? HDMI cables?

Who? Group/Project name	Where? Location in space	Resources, tech and/or hardware needs
Rhythms Visualized	Large screen in front of room	As many microphones as can be compressed to a single input :D (microphones + mixer) Screens at front of room HDMI cable, mac converter
Group 8 http://ideate.xsead.cmu.edu/gallery/projects/performance-3d2562c5-0d08-4b8e-be31-26e552ffd285	Facing the back windows and projecting onto the window screens.	Speakers, projector, HDMI cord, screens if possible.
Group 3 (Mad Lib Theatre)	If possible, the large screen in the middle of the classroom? Or, the small screen on either side of the room.	Audience participation (ie. voting) via "voting lollipops" (each has two sides--purple and yellow--for the two possible choices)
Projection-mapping Ukulele http://ideate.xsead.cmu.edu/gallery/projects/untitled-e6a9118e-bf69-4629-95ba-835ed57354a6	Left-hand side while facing the televisions (the blank wall).	Projector, extension cord, speaker and microphone.
Silhouette Performance http://ideate.xsead.cmu.edu/gallery/projects/silhouette-performance	Either side (left or right) of classroom	Projector, bright stage lights,
Unspecified	Large screen in middle of classroom	Projector, hdmi cable, audience participation, extension cord

Bad Translator http://ideate.xsead.cmu.edu/gallery/projects/bad-translator	Either concrete wall side of the classroom; Or the large screen in the front	Speaker, projector, hdmi cable
Blink	Project onto the back windows.	2 projectors,1 laptop, speaker(?), a table + 2 chairs (from the classroom)
