Dear Administration,

I hereby submit a request to be unbanned,

Hey Mazhor,

I was banned for breaking rule 1.1 and abusing roleplay. I'll tell you what happened, I was arrested and then I was out of the house for a moment and where I came up was my brother who is 19 years old playing. I told him to go away and he didn't listen. I said I'll tell my mother and he said if you say something you'll get hits in our half Russian/Albanian household you just wake up with hits. But now to breaking my rules I couldn't do anything because it's my brother, you have to put yourself in my situation your big brother is playing you can't do anything and you'll be banned permanently and you can't do anything you have fun during the holidays and on the weekends have found friends online here and then you will be permanently banned.

and I know that this application will be rejected and I will have to look for a new server or will probably stop with gta roleplay. I wish you all the best.

goodbye.
