MLA 9 Screenshot Citations for IB Film

Each image must include a label (Figure, Fig.), a number, a caption and/or source information.

Label goes underneath the image and includes full source information, but list the author with the first name and then last name.

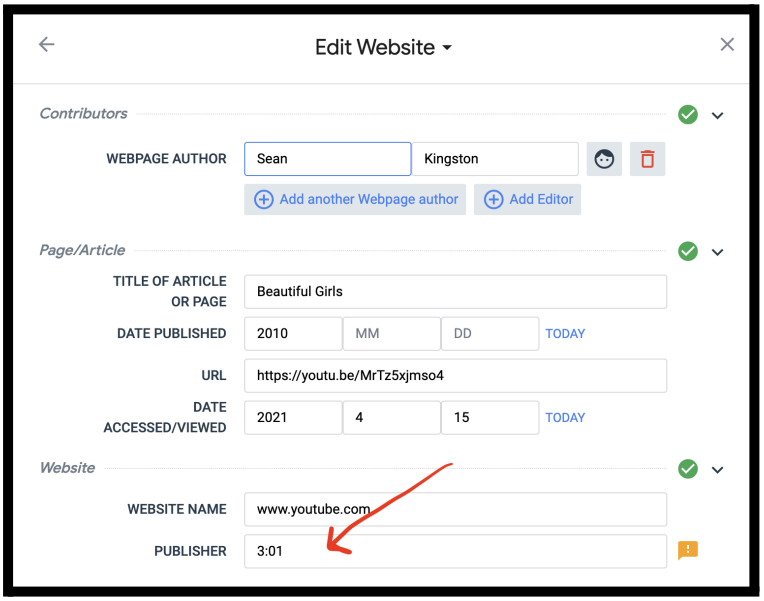

Example:
Fig. 2. Singing at the bar from Sean Kingston."Beautiful Girls." *YouTube*, 3:01, 2010, youtu.be/MrTz5xjmso4. Accessed 15 Apr. 2021.

Short description of the image from creator/director

Note: Works Cited entry lists the creator/director with the last name first, so you will have to manually change this from the MyBib entry which would be: Kingston, Sean. "Beautiful Girls." *Www.youtube.com*, 3:01, 2010, youtu.be/MrTz5xjmso4. Accessed 15 Apr. 2021.

Timestamp of when the image was captured or have a runtime stamp such as 1:02:15-1:05:35.

In MyBib, put the timestamp in the Publisher box and then it will automatically put it in the right place (after the contributors and before the publishers/date/etc).

IF you have multiple images from the same video or film, after you have listed the full entry underneath the first image, you can then give a shortened form (e.g. last name or shortened title) followed by the timestamp taken from the same source:

Fig. 3. Kingston 2:01
Fig. 4. Kingston 1:51:16
