

"Discover How This Revolutionary New A.I. Sales Android Can Generate 15 to 25+ Sales DAILY From Your Old Database Of Leads - On Complete Autopilot!"

Reactivate your client base!

This is the FASTEST way to Grow Sales in your Business - with ZERO rejections.

Every business has leads sitting in their database...

Businesses spend good money on these leads - money that they will never get back. This is costing businesses BILLIONS \$\$\$ in lost sales every year.

Lucky for you - YOU have come to the right place!

Because... Creating Sales From Old Databases Is What We Do! 😊😊

The technical term for what we do is called “**Database Reactivation.**” A very small percentage of people in business know about this and it is a HUGE Game Changer for businesses.

Your business most likely has an “**Old Database**” of leads. At this point, we call them “**Dead Leads.**” 🦴

Here's the thing nobody tells you about these old lead databases:

Your **"Dead Leads"** aren't really dead... They're just being **ignored**. 😞

While you're spending Thousands of Dollars 💰 EVERY month chasing new leads on **Facebook**, **Google**, **Instagram**, etc... you're ignoring the goldmine of leads you're sitting on who already raised their hands and said **"I'm interested."** 🙋

So, this is **"The Offer"** that I make to business owners that have these old databases of dead leads:

This is what WE can do for YOU...

"I can take the leads in your old database and turn them into sales using AI Automation - and you ONLY pay me when we make sales from those leads."

How do you think these business owners with these old databases respond to me?

It's a VERY Positive response and I get a **"Let's do it"** almost EVERY time!

Here's an example of what our **Database Reactivation Service** does with an old database of dead leads:

- 1000 Dead Leads × 5% Reactivation Rate = **50 new customers** 📈
- 50 Customers × \$2,000 Net Profit on Average Sale = **\$100,000 Net Profit** 💰

- Provider (Us) Split for Successful Reactivations: **\$40,000 Split** 🇺🇸
- Client/Partner (You) Split for Reactivations Sales: **\$60,000 Split** 🇺🇸

In this example, the Client/Partner agreed on a 60/40 split of the Net Profits with the Provider and received \$60,000 from reactivated leads that were collecting digital dust in their database. Remember, these were leads that were paying them NOTHING... ZERO! (We do 60/40 splits for long-term agreements or 50/50 splits for short-term agreements)

Would you rather receive \$0 on 1000 dead leads? Or collect \$60,000 on 50 of 1000 reactivated leads? I think that's an easy decision lol 😊!

Now, the 950 dead leads that didn't respond... we can continue to nudge them to make a decision either way. This means even MORE sales for your business! 🇺🇸

Unfortunately, most business owners are letting those dead leads continue to sit and collect digital dust while they burn more cash on more cold traffic. 🔥💰🤖

It's absolutely insane. 🤖

Here's exactly what we will do:

We will take your old database of dead leads and bring it back to life using **AI Automation**. This AI Automation feels personal, hits at just the right time, and gets immediate responses. 🤖✨

The way people respond and buy in sales processes is changing. People DON'T like being cold-called anymore and rarely pick up for unknown numbers. This makes it very difficult for companies who still rely on calling up leads to book sales calls.

This is why SMS is working so well for us. Instead of blowing up their phone at inconvenient times, we can send an SMS and get 40% to 50%+ reply rates.

We combine **SMS** with an **AI Sales Android** together, which works non-stop **24/7/365**, sending **"Intelligent Message Sequences"** to your old database that reference their original interest, acknowledge the time gap, and give them a compelling reason to re-engage with your business. 🎯

The result?

- Dead Leads Start Responding 📞
- Cold Contacts Book Calls 📅
- Forgotten Prospects Become Paying Customers 🇺🇸

Your database starts making you money instead of taking up server space!

Do I have your attention yet?

Let us show you how our **AI Sales Android & SMS** can create NEW Sales from your old database of dead leads.

We can send you a link to a short Demo Video to see our AI Sales Android in action!

👉 **CLICK THE LINK BELOW TO SEE A DEMO VIDEO** 👉

The Demo will give you a play-by-play of the AI Sales Android, in action, communicating with a lead.

Want to test out the AI Sales Android with your database?

We just need a sample of at least 1000 leads, in a CSV File format, from your old database to work with. Then, we'll set-up our AI Sales Android to go to work for you.

And here's the best part:

🎉 We only get paid when you profit! 🎉

That's right...

- ❌ No Upfront Fees
- ❌ No Monthly Retainers
- ❌ No "Trust us, it'll work eventually"

We **ONLY** make money when you make money... Period. 🤝

The reason why we **DON'T** charge Upfront Fees to do this is... We'd rather partner 🤝 with you and get paid on each new sale we generate from your old database.

We will split the Net Profits 50/50 with you. (**Total Cost** minus the **Gross Sale**. This gives us the **Net Profit**. We use this number to split 50/50).

Keep in mind that we shoulder **ALL** of the risk. We build out the AI Sales Android and develop it to suit your specific business. And we don't make for a dime upfront.

Why would we structure it this way?

Because (1) WE don't want to be a liability in your business and (2) we're that confident that we can bring your old database of dead leads back to life and start generating revenue within 30 days! 🕒

If you've got 1000+ leads collecting dust, there's only a few questions left to ask:

Do you want to keep paying for new leads while your existing ones make you \$0? 🤔

Or do you want to turn your biggest **liability** into your biggest **asset** with ZERO risk? 📊➡️💎

Ready to stop burning cash on new leads while your database sits idle? 🔥💸

👉 **READY TO DO A TEST RUN ON YOUR LEAD DATABASE?** 👉

We'll analyze your lead database and show you exactly how much revenue you're leaving on the table. 🔍💰

Then, we just need a sample of at least 1000 leads, in a CSV File format, from your old database to work with. We'll set-up our AI Sales Android to go to work for you.
