

On-field Photographers

EPSA needs help capturing the fun happening on the soccer fields throughout the season. Looking for two volunteers per division to take photos and videos!

The on-field photographers are responsible for capturing images of action shots, teams, friend groups, referees, coaches, and fun moments. Send these photos to EPSA via Facebook messenger. Include a small caption of what is happening in the photo.

The total time investment for this role is 30 minutes per week during the season and two-hours per month for board meetings as able.

Transitioning into the role will include access to the Volunteer Coordinator for questions and a one-pager with details.

The duties of the Uniform Coordinator include:

- Take digital photos on a personal device, usually a smartphone.
- Select the best photos, keeping the total to about 5 per week. Quality over quantity is appreciated.
- Use Facebook Messenger to upload the photos to EPSA.
- When uploading the photos, include a short description about the image in the photo.
- Once you have sent the photos, the volunteer webmaster will review them and select some to post on social media and the website.
- Note, all players and/or their guardians have signed a photo consent form during the registration process. While we have legal permission to use player photos, we still suggest respecting player/family requests to not take photos.
- Attend monthly board meetings as able.
