Video Editing and Presentation Tools

wevideo	**WeVideo** is a collaborative online video creation tool. In the video editor you can upload your own media clips or use stock media clips to produce your video. The WeVideo Google Drive app allows you to save all of your video projects in your Google Drive account. http://youtu.be/WcLErv-Oauo
Slide.ly	**[new]** **Slide.ly** is an application for creating slideshows with music and effects to be shared via social media sites. Users may obtain images online.
emaze	**[new]** **emaze** is an online presentation application to create stunning presentation quickly and easily.

	[new] **Genially** is a tool with which you can create all kind of online contents (images, posters, presentations, guides, catalogues,…) enriched with dynamism, interactivity and external contents. https://www.genial.ly/
	See thousands of videos translated everyday here. You can upload your video and help translate it into multiple languages. http://dotsub.com/
	PowToon is a free web app that lets you easily create presentations and animated videos, often with a cartoon look and feel. http://www.webappreviews.org/2013/04/powtoon-edu.html http://www.powtoon.com/p/bMedJ0LEuid/
	The **Zimmer Twins** is a neat site for introducing elementary school students to making simple animated video stories. Students do not need to have any drawing skills in order to create a story as all elements are added to the video through a simple drag and drop interface.
	Screenr is a very simple, easy-to-use tool for creating screencast videos. You do not need to register
	Photo Peach is a service that allows you to quickly and easily create an audio slideshow, with captions, from images in your Flickr, Picassa, or Facebook account.
	TubeChop allows you to easily chop a *funny* or *interesting section* from any YouTube video and share it.

	Zamzar is a file conversion site that you can use to upload one type of video and convert it to another. http://www.zamzar.com/

Video Conferencing

|	
	With **Skype** we can collaborate with other classes, no matter where they are. https://vimeo.com/44867804
	Google Hangouts A Hangout is a web-based tool created by Google for communicating through video. Up to ten people can "hang out" at one time in a virtual "room." http://www.educatorstechnology.com/2013/05/3-easy-ways-to-create-google-plus.html
