

## What do I believe about community?

Take a moment to reflect on your thoughts on community. Our beliefs tend to drive our actions and we put our energy and attention on things that we value.

- What do you believe about community?
- What does community mean to you?
- What is your part in a community?
- Do your beliefs match what is happening in your school?
- How do my beliefs fit in with how I lead others in real life?
- What action can you commit to in order to have your community reflect your values and beliefs?
