.Read and answer the questions

Technology has changed how we live. Today large thin TVs hang on walls. Computers sit on desks at home, school and work and in many other places. In cars, a box can speak to the driver to tell him where to go. We can use our mobile phones to listen to music, take photos, watch TV or films, use the internet and to send text messages to each other – oh, yes, and talk to people

One thing we can be sure about – there will be many more computers. Schools • use computers now but in the next decades they will use them more and more. Some people say all children will have one on their desk. Or perhaps they will take a .small laptop with them all day

And what about next century? Some scientists say there will be no schools. • Children will stay at home and have their lessons on computers. Teachers will not .teach – they will only program the computer

.Read and tick the true sentences

().You can see computer in different places -1

().Schools will not use computer next decades -2

:Find out the meaning

..... years 10 -1

..... years 100 -2

..... Big -3
