

Spanish Exchange Program

Bedford High School, Bedford, NH

(rev. 9/26)

Overview

Our Spanish sister school is IES Núñez de Arce in Valladolid, Spain. This reciprocal relationship allows us to share language and culture between our students, the two school communities, and the two communities at large. Our students have the opportunity to participate in a home stay with a Núñez de Arce student and host that same student when he or she comes to BHS. The time in Spain involves living with the host family, attending some classes, going on cultural excursions as a group, and spending a few days in Madrid. This is a reoccurring program and takes place every other year with the Núñez de Arce students coming here in the September and BHS students going in April.

Current Schedule

Spanish Students visiting BHS: Sept 2025.

BHS students traveling to Spain: Intersession 2026

Details

The Spanish Exchange Program follows the same time line as Intersession. Students who hosted are given priority for signing up and if there are extra spots, others can join as well. The cost has ranged between \$2,800 - \$3,300. Each year the cost is revised according to airfare and costs while in Spain. The final cost is published on the Intersession web site. Most students also bring spending money for souvenirs and coffee shops.

There are no restrictions on Spanish language skills. Students from every level of Spanish have gone including 9th graders in Spanish II. Most students tend to go in their sophomore or junior year but seniors have gone every year as well.

The trip typically runs from the weekend before Intersession to the middle of April vacation. It runs every other year and the planned years are 2023-24, 2025-26, and so on.
