## How I work

I will send you how much it will cost you, and if you will be okay with the price I will send you a quick sketch with low res to set pose/composition and you can ask for some changes. When we agree on everything you will send me the full price on my Paypal. After you paid I will start your full commission. I will send you some WIP pictures so you can ask for some small changes. Depending on the complexity of the picture it will take me up to 1-2 weeks. You will receive high-quality jpg. and PSD file.

There is no refund after you paid me (unless I can't finish the commission because of personal problems), so make sure you are okay with everything.

You have to agree with me using this artwork for my social media. You can post my pictures anywhere, but mention me as the author.
