Lawler Head Of Oshkosh ADT Office

Officials of the American District Telegraph Company have announced the appointment of Robert R. Lawler as manager of the central office in Oshkosh.

The controlled companies of American District Telegraph

Lawler

comprise a nationwide organization engaged in the design, manufacture, installation, maintenance and operation of electric detection, su-

pervisory and alarm systems.

The Oshkosh central station, located at 738 High Ave., maintains and supervises hundreds of alarm systems in cities throughout northeastern Wisconsin. Electronic equipment has been designed so it is now operational to receive all types of alarm and supervisory signals from principal cities in the Fox River Valley, including Green Bay, directly into the central station in Oshkosh.

Lawler has been with the ADT Company for 17 years and for the past five has occupied the position of service supervisor at the local office.
