

THE NEW DEAL

Dear Senator Gunnz, do your homework

By Scribba

Democrats,

I would like to take the time to highlight just how clueless the republican party is apart from affairs around the nation. Now let me be clear, it's fine for Gunnz to not know the happenings going on in my state. But for him to attack the sitting Governor without knowing their history is outrageous. This is what Guunz had to say.

Gunnz: "In Dixie, the Democrats have had a newly elected Assemblyman made Governor of the state. This person is not qualified, nor are they equipped to run Dixie. The people of Dixie know this, and I am more than certain that, if the last election is any indicator, the people of Dixie will elect a Republican Governor, Lt. Governor, and Assembly majority."

As many of you who live in Dixie know, /u/PoliticoBailey has been in the Assembly since the [first](#). Maybe Gunnz should focus on holding the Senate Majority now that Senator Nam has left them.
