

Hey [name of business]

I have recently come across your channel and its very motivating to see results of hard work. I especially like the before and after results!

I've recently started extensive training to become a Digital Marketing Consultant.

I would like to help your business reach out with more recognition, I reckon I'll help your gym reach new heights as I bring expertise in creating targeted social media campaigns, optimising your website and crafting compelling content to engage potential members.

I've put together a few marketing ideas that will benefit you in gaining more social attention like have you done daily newsletter before?

I'm looking to get some internship experience by providing FREE value in order to earn some good testimonials, before I start charging.

Are you interested in expanding your workplace and becoming a broader, well known online presence by the assistance of marketing tactics? If so, feel free to reach out.

Regards,
Aayush
