

Project ID: YW-2015-0019

Project Description: Yampa River Wells

Reason for Project: New infiltration gallery, additional treatment, and vertical wells (2020-2022). Cost estimate is for a new infiltration gallery and does not include the cost of new wells.

Project Status: Completed MWW's new infiltration gallery and the RFP for the City's 4 vertical wells project is out for bid. Responses due August 23, 2023

Lead Proponent: Mt Werner Water & City of Steamboat

Lead Contact: Frank Alfone, MMW/Julie Baxter, SBS

Estimate Cost: \$3,000,000 (the MWW project equaled 3.5M)

Water District 58

Project Key Words: Municipal & Industrial Need, Agricultural Need

Estimate Yield: 1 – 1.5 MGD – this target amount was achieved with the MWW Infiltration Gallery Project completion

Water Right Needed: MWW filed and received a new Junior Water Right on the Yampa River in 2019. Augmentation water is secured (MWW is under contract with the UYWCD) in both Stagecoach and Yamcolo Reservoirs

Latitude/Longitude 40.445847 Lat -106.818911 Long

Funding Sources: MWW and a 2.5M loan from the Colorado Water and Power Development Authority

Schedule: The 4 new vertical wells are planned to be installed in fall, 2023.

BIP Obj. Addressed: Identify and address Municipal and Industrial water shortages. Restore, maintain, and modernize water storage and distribution infrastructure.

Needs & Next Steps: The City intends to install 4 new vertical wells in fall, 2023.
