

Speaking to a local Indian-Canadian community center in Brampton, Ontario Premier zhuk236 emphasizes the importance of voting PC in this election, emphasizing their policies on education reform and Highway 413 as critical to the future of the Greater Toronto Area.

Namaste, my friends!

I'm so glad to be here at the Brampton Multicultural community center, speaking with a group of proud fellow Indian-Canadians about the key issues facing our country! *crowd cheers*

I am here today, kickstarting my tour with this amazing community, because I want you all to know the record of this government, and why you should re-elect your amazing candidate /u/ModelPeterMacKay to Parliament.

This Progressive Conservative government has been fighting for Bramptonians every step of the way. Our education reforms, from increasing funding to medical schools, to investing in the creation of new schools and hiring new teachers here in Brampton, will help improve the quality of education for Indian-Canadian communities across Brampton. Our high school graduation reforms, from, eliminating the one-credit requirements for French, arts, and physical education, extending the science credit requirement so that one credit is required in a field of science in either grade 11 or 12, lowering the number of English credits required to three so that taking English is only mandatory up to grade 11, making it mandatory to take a course pertaining to everyday finance, teaching students how to manage money as an adult and handle regular tasks such as filing taxes and paying off credit card debt, and reducing the amount of required community service hours to 10 hours from 40. All these reforms will help improve the quality of education for Bramptonians, create a more conducive learning environment for kids here in Brampton and across the Greater Toronto Area, and ensure Ontario is a great place to settle your family, work, raise kids, and pass on a better life to your children than what you started with.

Furthermore, a PC government, with the help of ModelPeterMacKay, will help deliver on the vital Highway 413, ensuring Bramptonians have shorter commute times, save on money and gasoline, and have more time to spend at your jobs, with your kids, and having a better quality of living. The construction of Highway 413 is already creating thousands of jobs, not just in its construction, but also with the many small businesses and entrepreneurs who are able to set up shop nearby, helping grow the local economy here in Brampton and generate revenue for public services. Highway 413 is a crucial aspect of our forward-looking program here in Brampton, which is why if elected, my friend ModelPeterMacKay will fight hard to ensure its completion for families here in Brampton and across the Golden Horseshoe.

Finally, thanks to the efforts of this Progressive Conservative government, we have invested 3.6 billion dollars into Stellantis EV plants right here in Brampton, promoting clean, renewable electric energy in our province, going hand-in-hand with our promise to invest in the green energies of the future, working with the federal government and our business partners to deliver thousands of jobs for Ontarians, and creating a friendly and open business climate that ensures these investments can be made so that Brampton, along with all of Ontario can thrive.

Now, we at this election face a clear choice. We can choose a government that has been delivering for our community here in Brampton, from education reform to Highway 413 to Stellantis EV plants, or an opposition that has sat on the sidelines. I urge you, my friends, to choose wisely.

Thank you all! And if you liked our agenda, I hope you consider voting for my friend /u/ModelPeterMacKay this election!
