Hi Team Ascend,

Hope you're having an awesome day,

Your brand caught my attention through my female friend, who's now a devoted fan of your products Since your First Serum Launch in 2020. Your commitment to quality cannabis extracts from Europe has truly impressed me.

I've been doing some research and noticed a few areas where your already amazing brand could shine even brighter. Things like a more user-friendly website and captivating ad copies.

I've compiled some value into a document that I believe could make a real difference for your Brand. If you're interested leave a reply and I'd love to share it with you.

Feel free to learn more about me at www.eshangarg.com
