

Five Nights At Springy

Characters

1. springy-messed up animatronic(mix Of the original gang bonnie,chica,freddy and foxy)
2. Original spring bonnie-To be used for flashbacks/cutscenes(low chance of showing up in the game)
3. Withered spring bonnie(Not springtrap)-Missing ear, missing chest plate and an arm
4. Golden foxy-Foxy but gold but he's way more twitchy and will sneak through vents but can run through the door like the original
5. Hidden characters to be revealed

Mechanics/Etc.

- *Set in 1985=Location Unknown=Fnaf 1 office with a twist vents either side door are still there but w.spring bonnie crawls through both vents*
- *Camera system has a brightness button to brighten up dark spaces where potential hidden characters can hide*
- *Noise button to direct w.spring bonnie to other rooms(can potentially fail at times)*
- *Hidden character(3) disables Your shocker temporarily and cant be used for 15 seconds Fred helps Goldy attack you*
- *Nights (1-5)are generic only certain characters attack on each night(a .2% chance to see 2 Characters attack in one night)*
- *Night(6-7)Everyone attacks on night 7 on night 6 only the hidden characters attack(again a .2% chance of the other characters popping up...)*
- *There will be tasks just like in fnaf SL and help wanted, But these are different tasks such as cleaning up the office, checking up on the animatronics*
- *backroom-No one can access this place it's boarded of ending will be you get dragged into the room and killed by hidden character(4) Only will happen if you die on night 7*

Endings

- The golden ending-You survive night 7 meaning you successfully finished the game you get your check and burn down the place
- Not so golden ending-you don't survive night 7 your dragged in the kitchen your head is put in the oven and the oven is turned on and your burnt alive
- Surprise party-you luckily survived and you get a knock on the door it's purple guy you wonder what he's doing at your home he has a machete and basically kills you cuz surprise ending yay
