7th Grade Service Learning Project - 2020

Introduction:

The 7th grade-based service learning project is meant to expand students' involvement and commitment to service learning through building a sustained connection with an organization working to have positive impact in the community.

The 7th grade-based service learning project is all about connecting your interests and passions into the community and learning from volunteering with one organization over several visits. It requires self-reflection, research, planning, connecting, and following through. The project culminates with a speech about your experience given to your core class.
