

# 2026 ski show

01:00 **Twin 4 person back barefoot line**

2:54 **Triple Opening pyramid skied by**

**NEED 50 second to one minute skit while climbing down**

4:00 landing

4:24 landed

Stage presentation done 4:55

Waives clear 1min30ec **1 min 30 sec skit to clear waves**

**Montage 7:40 need different song for montage**

<- Jump done 8:05

-> Back Barefoot Dock **go as soon as jumper lands, you need to beat the roller**

<- Trick Ski **go as soon as barefooters are out of way**

-> Todd Shoe Ski

<- Trick ski **Tadd needs to use Andrews Rope**

<- Shoe Ski **second pass needs to be closer to shore and go first if Tadd is not ready:):)**

12:42 **Montage took 5min / we could save 2 min if we go right away**

**Ballet Should be on Dock if possible** (try a cool walk out from behind backdock)???(**save 30 seconds**)

13:50 Dance

Idle out 14:37

**Ballet start 14:53**

Ballet land 17:08 (2min 30sec)

Dance done 18:30 (entire act took 4min 40 seconds)

19:10 pulled out **Barefoot Multiple Jesse Take smaller turn for footers. We can take sharp turn**

20:20 skied by **make the multiple go a lot closer to shore and trim motor**

22:38 Dance Started **(Save 30 seconds if drive closer let go earlier and hustle)**

Dance done 23:30

24:30 start **Swivel start farther east Todd will set cone, take a lot smaller dog bone /go little farther behind for landing**

swivel **Todd needs to speed up more to time landing better**

Swivel

Swivel

28:50 Swivel done (4min 20sec)

**Strap double could start way earlier**

30:50 Started **Strap doubles could save 1min 30seconds if straps are ready**

Strap doubles

Strap doubles

Strap dbles **Donn as soon a shawn passes front dock speed up 3 or 4 mph and cut a little shorter to close the gap so there isn't a leg because you have to go around the jump**

Straps Done at 34:30 (strap doubles took 3 min 40seconds)

At 35:45 water was clear... (need a 1 min 15 second skit for jumpers) we can save 1 min 30 sec for jumping could go earlier and not picking up jumper if they fall and landing them quicker

**jumpers need to spread way out so they hook up easier and they should be neck deep**

36:39 **Jump show right** jesse after they land and skier is passed front dock power turn to right and sink, **YOUR BOAT IS CLOSER AND READY TO GO AROUND THE JUMP TO LAND THEM/MAKES IT QUICKER AND LESS WAVES FOR NEXT ACT**

Jump show right **jamie if they fall don't pick them up, if they make it go passed jesse and power turn right**

Jump 39:00 landed

Presentations done 40:28 jump took 3 minutes 50 seconds

**need a 3 min skit before big act**

43:30 **Big act started**

Flags

Swivel line

Convent

Straps

**Trios - jesse you were a little behind on landing (i measured waterloo show right and we will need to tighten our patterns up/boat will have to be a little closer just a little) Everyone needs to 45 back to back dock after you go past the jump WE SHOULD NOT MAKE A BIG CIRCLE.....**

Trios landed at 49min big act took 5min 30sec

Done presentations 49:36

52:45 water was clear!! **need 3min 10second skit**

**ATB**skiing went by front dock 53:50 person **ATB**

Landed 54:40 **skiers need to do a presentation / need to cut harder....**

55:00 presentation done

**need a 3 min skit**

58:11 **Barefoot circles** 59:30 done skiing**run up and get presentation**

on shore done with presentation 60:00min

**need a 1 min skit** it took us 3 min and 30 seconds to get final ready after barefoot presentations we can save that time easily if we are ready

idle out 1:03:30

started 1:03:50 Final Pyramid **skiers need to hurry and get on dock after jumping / run back and get skis and go on dock during barefoot skit / final needs to be ready before back barefoot**

Landed at 1:06:40 2min 50 seconds

presentations and dance done at 1:08:49 subtract 1 min of video at start 1:07:49 seconds

Dance

-load pontoon before show

-if skier falls on start? Watch out for roller

for next montage act?

Jessica in Todd's boat? Lynn's boat spotter?

- Jamie and Dustine, wait until Donn clears run to drop Tadd or people off
- Montage back barefoot leave before the roller for back foot
- Tadd use rope barefooter

Dustine closer to front dock on the way back

-show right skiers swim to boat can't have boats in shallow water

- we need to measure 390' show right
- barefoot multiple closer to front dock
- barefoot multiple needs trim after start not before ..... set pickup boat at jump pick up ski quicker if possible....

Swivel farther to east /start right after barefoot runs off.....

Smaller dog bone

Doubles needs to be ready during swivel- someone directing traffic

Donn could speed up a little and cut shorter to land quicker. Nice driving guys...

Jumpers spread way out go farther down... to get picked up and neck deep!! Don't pick up second jumper let pickup boat get them

Start bring back as he is hitting jump land them around the jump

Practice group jump with 3 boats facing show right even with back dock

Trios to far out and a little behind

Need longer skit

All boats after jump on big act take 45 to back dock after jump - no circle

Go fast if possible

ATB does presentations
