We would like to thank the people who participated in our workshop. Our session was messy but we hope you found it fun - now we need to clear up the crumbs and we need your help.

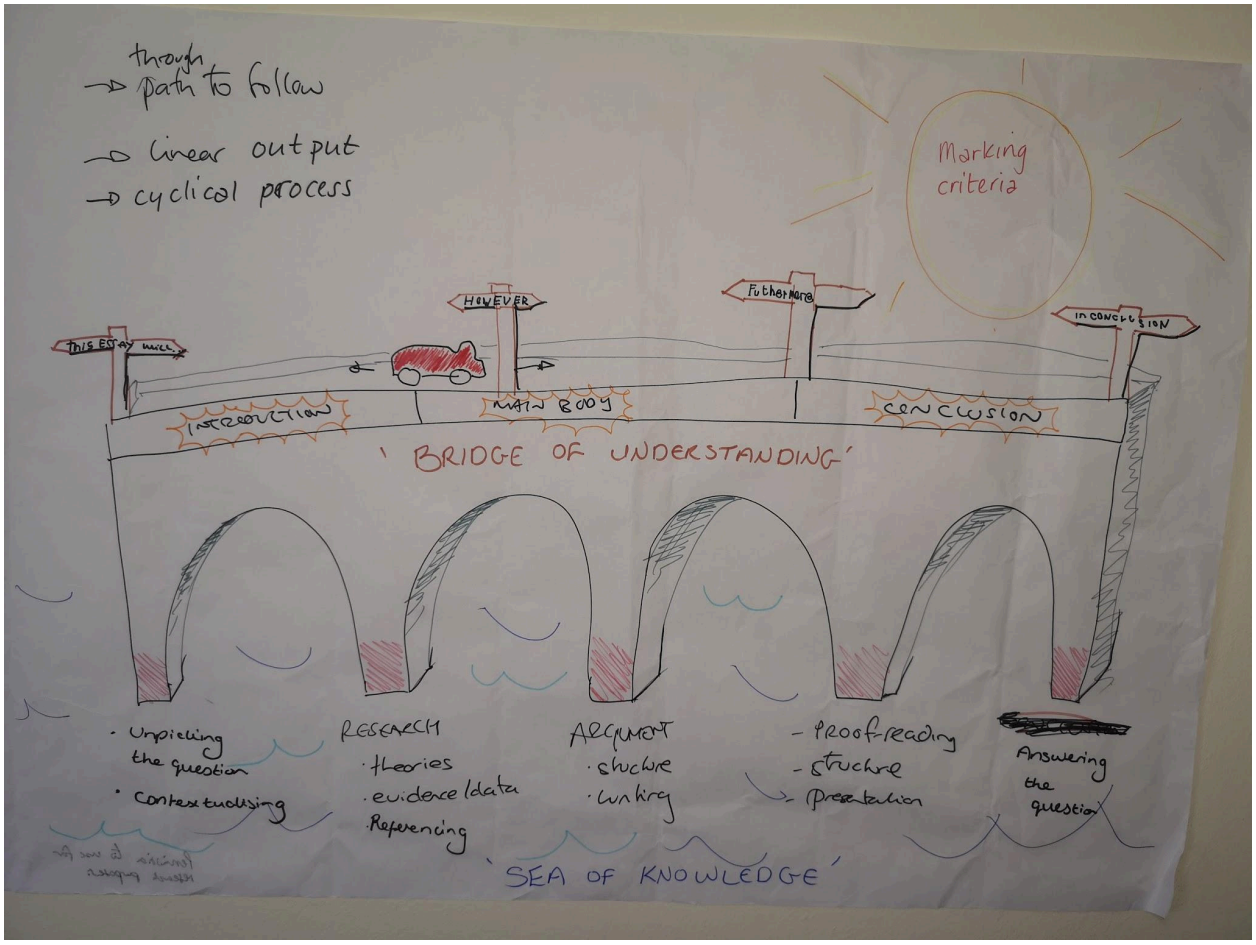

There was a fantastic ‘buzz’ around the room and you all came up with really interesting analogies of the essay writing process. The challenge is for you to see how much you remember.

Since we didn’t have time to do a final roundup and share all your ideas we would very much appreciate if you could tell us a little about the thinking behind your designs. Please scroll through this document till you find the drawing your group worked on and add your thoughts and explanations. Don’t worry if you disagree with someone else’s perceptions as this is part of the collaborative process.

And could someone please explain the ‘thingymebob’!!!!!!?
