

Kindergarteners will be learning to name and draw the 3D shapes. (Circle, Square, Rectangle, Triangle) Students will be able to tell how many sides and corners each shape has.

Kindergarteners will also learn how to count, write, and show numbers 0-5! Students will draw a set of objects to match a given number and will show amounts using different manipulatives (counters or cubes).

Please continue to practice writing the numbers 0 - 5 at home. Students should use real world objects at home (such as toys) to practice counting to tell how many.

Phonics:

Kindergarteners are beginning a new phonics program called *Countdown!* This program builds strong foundational literacy skills through fun, hands-on, and multi-sensory activities. Module 1 will focus on building the essential skills needed for reading, such as hearing rhyming words, comparing similarities and differences, sorting by categories, and practicing important concepts like before/after, beginning/middle/end, and spatial words such as above/below.

Reading:

Kindergarteners are learning all about stories in reading. We are exploring the ideas of character and setting while enjoying books about families and communities. Through our reading, we will discover how to learn together, share ideas, solve problems, and celebrate differences. We will also explore the big question: *What will I discover in Kindergarten?*

In Writing Workshop, Kindergarteners will be sharing their opinions using illustrations and words. Writers will be introduced to the role of an author and illustrator. Students will discuss the features of opinion writing. They will learn to plan and organize an opinion writing piece by supporting their opinions with reasons.

Writers will be introduced to the parts of the sentence e.g. uppercase letter, lowercase letters, punctuation, and spacing between words. Please encourage the students to practice writing their names at home.

Science:

The Kindergarten Scientists will be learning about how we can make objects move! Students will explore force and how we can *push* and *pull* objects. Students will learn how direction and strength influence the movement of objects.

Social Studies:

Kindergarteners will be learning about the members of our school community and the roles / responsibilities of each person. We are also learning the rules that we must follow to keep everyone safe and happy in school.

September 10 - Parent Meeting with the Principal at **8:30AM**.

September 17 - Back to School Night

3:30PM-5:30PM (In-Person)

September 23 -Rosh Hashanah (**NO-SCHOOL**)

September 24 -Rosh Hashanah (**NO-SCHOOL**)

- Please check the Class Dojo daily for reminders and messages from your child's teacher.
- Students should be reading books for at least 15 minutes each day.

Thank You for your continuous support!
We look forward to a wonderful year with you!

K-11: Ms. Narell
K-12: Ms. Fernandez
K-13: Ms. Oh
