With extensive experience as a Senior UX Designer at CarltonOne Engagement, I create and refine Figma designs and prototypes, ensuring clear, user-centred solutions for clients, stakeholders, and developers. I collaborate closely with Development and Marketing teams to deliver seamless, impactful products that meet client and partner needs. My background as an Imaging Specialist and Production Artist also equips me with a keen eye for detail, enhancing my ability to deliver high-quality visual assets under tight deadlines.

I strive to produce high-quality work and go above and beyond client wants and needs.
