

Welcome! Topic 12: Measuring Length

Dear Family,

Your child's login on SavvasRealize.com contains family resources you can use to help your child succeed in mathematics and to help you better understand the organization of **enVision®+ Texas Mathematics** and the Texas Essential Knowledge and Skills for Mathematics. Look for an overview, standard explanations and examples, topic support, math help at home pages that include sample problems and home activities, visual learning, games, videos, and so much more.

TOPIC 12 Measuring Length

OVERVIEW

Topic 12 focuses on measuring length. Your child will begin to develop an understanding of length by using small same-sized objects to measure the length of a longer object. Your child will also use string to measure the length of objects that are curved.
