

Food and Restaurant Survey

Write 5 questions about food and restaurants.

E.g. Do you prefer eating in or out?

Where did you eat out last time?

Talk to some of your classmates (4-5) and ask those questions. Write a short report after you have surveyed your partners. Share with your group.

E.g. **Most** students like Japanese food because...

Some of my classmates...

A few students said that...

None of my classmates...
