

ECC does not record immigration status of students; however,, we know that there are undocumented students and students from mixed-status households (families that include people with different citizenship or immigration statuses) on our campus. We recognize that DACA recipients, undocumented, and mixed-status students may need additional supports.

ECC offers support and resources for undocumented students dealing with stress or other challenges due to their immigration status and may benefit from referrals to [Wellness Services](#) or ECC's Undocumented Student Liaisons: Elizabeth Herrera and Marlen Ruiz, both in the Academic Advising office.

Additionally, for guidance and confidential support, students may also send an email to eccsupportsyoud@elgin.edu .
