

# Zone of Mechanics:

## Inception Of A Weapon

A set of maddened notes and glyphs that when read, allows Necrokinetic transfer through Cracked Crystal the ability to harm Workers.

*These notes, symbols, glyphs, scrawlings are comprehensible enough for **Proficient Necrokinetics** users to adapt the knowledge into a **weaponized thought**, that when held in the mind of a Strain, allows them to bypass The Workers' psionic invulnerability. Burning out an **Imbued Fragment** through **strange ritual** suffuses this thought to a **group of Strains** to nullify The Workers' psionic maelstrom's effects and allow them to be harmed.*

### Inception Of A Weapon:

- Requires **Proficient Necrokinetics** and the expenditure of **1 Resolve** and **1 Cracked Crystal per participant** along with **2 minutes of Roleplay**, the User may select up to **5 characters total** to be recipients of the weaponized Grave-thought-ritual.
  - Reading the notes and praying over them to allow for the ritual to take hold, at its end, the ritualists may take **Downsurge Can Not Resist: All Worker Psionics Are Invasive To Resist** to grant themselves the effects of **Upsurge: Null Status**.
