

How to Connect to Lipscomb's LipscombGuest Wireless Network

There are 2 Wifi networks here at Lipscomb: "LUBisonNet" and "LipscombGuest". This document will guide you through connecting to the LipscombGuest wireless network.

The LipscombGuest wireless network is an open wireless network and requires login or free registration through a web browser to use it. This wireless network may be used by students and employees, as well as guests on campus, after completing the login or registration process.

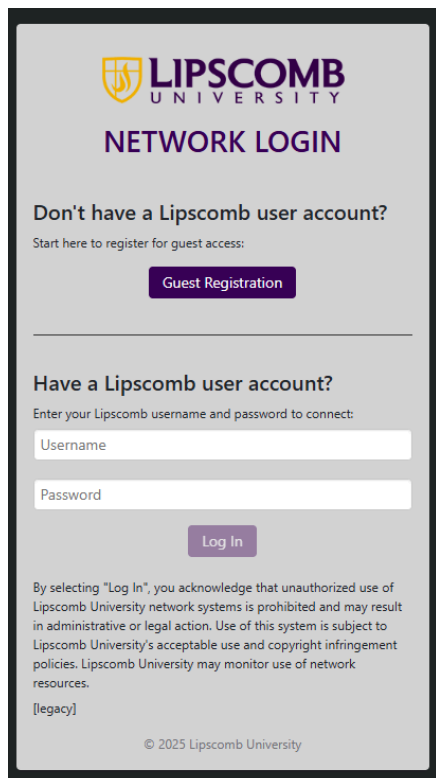

If you are attempting to connect a smart device such as a TV, Alexa, or gaming system, these devices need to be registered first. Please see this guide for [Wireless Device Registration](#).

Steps for Lipscomb Students & Employees:

1. Connect your device to the **LipscombGuest** wireless network.
2. After connecting on your device, a login web page stating "Choose how to access our wireless network" may automatically open in your web browser. If it does open automatically, proceed to the next step.

If it does not open automatically, open a web browser and attempt to browse to any website. You should then be redirected to the login web page, and you can then proceed to the next step.

3. Enter your **Lipscomb username** (name that comes before your @mail.lipscomb.edu) and **password**. Click the **Log In** button to complete the authentication process.

The screenshot shows the Lipscomb University Network Login page. At the top is the Lipscomb University logo and the text "NETWORK LOGIN". Below this, there are two main sections. The first section is titled "Don't have a Lipscomb user account?" and includes a link "Start here to register for guest access:" followed by a "Guest Registration" button. The second section is titled "Have a Lipscomb user account?" and includes the instruction "Enter your Lipscomb username and password to connect:". Below this are two input fields: "Username" and "Password". A "Log In" button is positioned below the password field. At the bottom of the page, there is a disclaimer: "By selecting 'Log In', you acknowledge that unauthorized use of Lipscomb University network systems is prohibited and may result in administrative or legal action. Use of this system is subject to Lipscomb University's acceptable use and copyright infringement policies. Lipscomb University may monitor use of network resources." and a "[legacy]" label. The footer of the page reads "© 2025 Lipscomb University".

Steps for Campus Guests:

1. Connect your device to the **LipscombGuest** wireless network.
2. After connecting on your device, a login web page stating “Choose how to access our wireless network” may automatically open in your web browser. If it does open automatically, proceed to the next step.

If it does not open automatically, open a web browser and attempt to browse to any website. You should then be redirected to the login web page and you can then proceed to the next step.
3. Click the “**Rather register for guest access? Click here.**” link to proceed with registering for guest wireless access.
(You may also click the “Google” button if you prefer to use your Google account to register for guest wireless access.)
4. Complete the “**Lipscomb Guest Registration**” form and then click the **Register** button at the bottom of the form.
5. A web page stating “Guest Registration Receipt” will now load. Click the **Log In** button to complete the registration process.

The login web page (captive portal) is not opening?

- Follow this link to manually load the LipscombGuest login web page:
