

Element, Compound, or Mixture

Substance	Element, Compound Or Mixture	Why?
 Rock	Compound	Made from elements which are bound together chemically
 Copper	Element (Cu)	It is a base particle type which can be found on the periodic table
 Jelly Beans	Mixture	It is made from compounds which are physically combined
 Sugar	Compound	Combined from elements (carbon, hydrogen, oxygen)
 Diamond	Element	Made from 100% carbon (C)
 Tea	Mixture	Made from water and leaves/herbs
 Salt	Compound	Made from sodium and chloride
 Neon Gas	Element (Ne)	Found on the PT
 Salad	Mixture	Made of lots of different substances
 Pure Water	Compound	Made from oxygen and hydrogen
 Aluminium	Element (Al)	Found on the PT

 Lemonade	Mixture	Made from different substances
 Silver	Element (Ag)	Found on the PT
 Sand	Compound	Made from different elements, like rocks
